War Covers

See: Military Mail)

Yukon

Territorial Court, surcharge—53 Feb.

THIS indexes all information published in Volume 12 of BNA Topics that deals with the philately of Canada and its provinces. The main headings, in general, refer to Canada whether as a province or dominion: thus, for example, references appearing under cancellations, literature, postage stamps, revenues, etc., are to be taken as referring to Canada. Material dealing with the other provinces is indexed under the name of the province as a main heading; subsidiary headings are used where needed (see Newfoundland in particular). Cross-indexing is used where needed.

It was not thought necessary to use an Author Index for the annual volumes; this would, of course, be needed in a Cumulative Index covering many volumes. Regular features in BNA Topics are not indexed as such, although the material contained therein is of course indexed. However, the official section has been indexed under the name of the Society as a main heading.

As it is hoped to continue this indexing at appropriate intervals, comments and suggestions are very much welcomed. Work on a Cumulative Index to cover 15 volumes has been begun
